2018 sta. rita hills "delta" grenache

first in the US to be certified sustainable, organic and biodynamic

harvest

- grenache from the estate is always the last pick of the year. in 2018 we picked on october 29 and the grapes were in excellent shape
- grenache is typically coming in with higher yields this year around 5 ton per acre. grenache has large clusters but with intense flavors
- sugar levels at harvest was at 25.0 with the typical balanced SRH acid and pH. we just love working with cool climate grenache!

wine making style

- the fruit spent the night in a cold room to drop the fruit temperature
- the grapes were de-stemmed into two $1\frac{1}{2}$ ton open top fermenters. we always chew on the stems as we destem and chew the stems to determine if we like the flavors this year we did not feel that the stems were ripe or had the right flavors to be included
- the fermenters cold soaked for 5 days until the native yeast fermentation started
- after just 8 days, with 2 daily punch downs, we drained the free-run (~80%) and gave the remainder a gentle press. at this time the wine was still fermenting but to avoid too high tannin extraction we decided to get the wine off the skins. after 2 more days in tank the wine finished fermentation
- the wine was racked into oak barrels where the native malolactic fermentation started
- no racking, fining or filtering

character

- starts with deep, ruby red hues
- the nose indicates candied cherries, floral notes, strawberry and a little cinnamon
- the palate delivers the strawberry and other red fruit components. silky texture with medium and soft tannins.
- a playful wine "ages gracefully" has never described a wine better than our grenache!
